### DETAILED ACTION

1. The amendment filed July 23, 2002 has been received and has been made of record. An Office Action in response to the above amendment follows.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 3, 5-8, 10, and 12-14 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Re claims 1 and 8; the Examiner is unable to understand the recited claim limitations. It is unclear to the Examiner in view of the specification what defines a "detection signal", a "position signal", a "selected head", and a "switched head". Because of the confusion regarding the claim language, the Examiner is unable to make a prior art search at this time. Claims 3, 5-7, 10, and 12-14 depend on independent claims 1 and 8, and since they do not clarify claims 1 and 8, they are also rejected.

The Examiner wishes to note that he spoke with Applicant's attorney, Mr. Patrick G. Burns, on two occasions in the past two weeks. The Examiner was asked to send a written response.

***Conclusion***
